

Asia Motion is Cambodia's first photography agency.

Established in November 2008, the agency was established through a cooperation agreement between several local and international photographers, who cover current events in the entire South East Asian region.

From very different horizons, these professional photographers and journalists have a common desire: portraying through photography the evolution of South East Asia.

The particular flavors, the economic dynamism and the fascinating cultural and social heritage from this part of the world are, amongst others, the focal interests of Asia Motion's photographers.

The heart of Asia Motion is in greatly linked and touched by this country.
